

# CCBHC SERVICES

CREOKS is proud to have 11 CCBHC's in Oklahoma which offer core services and a selection of custom services to best fit each client. These clinics use a Team-Based Care model for providing services.

Care is provided by one connected team, who work together to support mental health needs, substance use treatment and physical health concerns.

The goal is to ensure access to appropriate services, improve health outcomes, reduce preventable hospitalizations and emergency room visits, promote the use of Health Information Technology (HIT) and avoid unnecessary care.

## WHAT IS A CCBHC?

### HEALTH CARE MADE FOR YOU

CCBHC stands for Certified Community Behavioral Health Clinic. CCBHCs are not-for-profit companies that can help anyone who walks through the door. Details like ability to pay, address and diagnosis do not keep CCBHCs from helping a person.

With a focus on mental health and substance use, you will have specially trained care teams which are designed to match you and the challenges you are facing.

## TEAM MEMBER ROLES

Your care team will have three essential roles: therapist, case manager and peer support specialist. Other members could include a nurse, care coordinator, physician, etc.

### Basic Outpatient Services

- Screening, Assessment & Diagnosis
- Comprehensive Integrated Care Planning
- Targeted Case Management

### Additional Services

- Crisis Care
- Peer & Family Support
- Psychiatric Rehabilitation
- Housing & Employment
