

A Message from Our Chief Executive Officer

Hello Team:

I am writing to you today with a sense of profound respect and excitement. We have recently been notified that CREOKS Health Services has been selected to manage the CCBHC behavioral health and support services in the southeast region.

While we are excited to further expand our services in these communities, we understand that news of a transition can bring questions about the future. Our primary goal during this period is to provide stability, transparency, and support to each of you.

Our Commitment to You

We didn't apply for this RFP just to manage new facilities; we applied because we recognize the incredible caliber of the work being done there. We know that in behavioral health, the heart of the operation isn't a policy or a building—it is the dedicated people who show up every day for their clients.

To minimize disruption, our immediate priorities are:

- **Preserving Your Expertise:** We want to keep this team together. Our intent is to retain the talented staff who know these clients and these communities best.
- **Operational Continuity:** We are committed to a smooth handoff. For now, your daily routines, client care protocols, and schedules remain our top priority.
- **Open Lines of Communication:** We will be hosting a series of Town Hall meetings (both in-person and virtual) over the coming days to introduce ourselves, answer your questions directly, and listen to your feedback.
